

Ordinance No. 2020-14

An emergency ordinance relating to face covering requirements within specified indoor spaces within the city

The City of Minnetonka Ordains:

Section 1. Preamble

Since March 16, 2020, the City of Minnetonka has been under a local state of peacetime emergency, due to the worldwide COVID-19 pandemic. The conditions that gave rise to the state of emergency continue to exist. The United States now leads the world in the number of confirmed COVID-19 cases, and in some parts of the United States, the number of confirmed cases is surging, posing a threat to the response capabilities of health care facilities. Growing scientific evidence indicates that the wearing of face coverings in public significantly reduces the risk of infection from the coronavirus. The Center for Disease Control and Prevention, the Minnesota Department of Health, the Mayo Clinic, and Governor Tim Walz have all urged the use of face masks as a measure to reduce or prevent the spread of COVID-19. This emergency ordinance is adopted in response to the emergency and in accordance with Section 3.07 of the City Charter and Section 900 of the City Code to protect the public safety, health and welfare.

Section 2. Findings

The Minnetonka City Council makes the following findings:

- 2.01 The COVID-19 disease presents a serious health risk to the residents of Minnetonka. As of July 8, 2020, there have been 3,048,072 confirmed cases in the United States, resulting in 133,322 deaths, 39,133 confirmed cases in Minnesota, resulting in 1,511 deaths, 12,597 confirmed cases in Hennepin County, resulting in 787 deaths, and 214 confirmed cases in Minnetonka resulting in 28 deaths.
- 2.02 Scientific studies suggest that wearing face coverings significantly reduces the risk of infection from the coronavirus and that face-covering mandates could save hundreds of thousands of lives in the United States.
- 2.03 On June 28, 2020, the Center for Disease Control and Prevention (CDC) issued the following guidance on face covering use:
 1. CDC recommends that people wear cloth face coverings in public settings and when around people who do not live in your household, especially when other social distancing measures are difficult to maintain.
 2. Cloth face coverings may help prevent people who have COVID-19 from spreading the virus to others.
 3. Cloth face coverings are most likely to reduce the spread of COVID-19 when they are widely used by people in public settings.
 4. Cloth face coverings should NOT be worn by children under the age of 2 or anyone who has trouble breathing, is unconscious, incapacitated, or otherwise unable to remove the mask without assistance.

- 2.04 Many businesses in the city already require face coverings for employees and customers, and others have indicated that they would also if the local jurisdiction requires it.
- 2.05 The primary benefit of most face coverings is that it reduces the spread of infection by the wearer to others. Because many persons infected with the coronavirus may be asymptomatic or presymptomatic, without any reason to know that they have the disease, a face-covering requirement protects the health of others, such as business employees who provide essential services to the public.
- 2.06 Businesses are adversely impacted when employees become infected or must be quarantined due to an exposure. Employee illness can result in temporary closure of some businesses. Reducing the rate of employee illness provides an economic benefit to individual businesses and to the economy as a whole. The state encourages businesses to “Stay Safe to Stay Open.”
- 2.07 This ordinance is enacted for the purpose of protecting the public health, promoting the local economy, minimizing the need for future reclosing based on public health, and reducing the demand that COVID-19 cases place upon the healthcare system.
