Minnetonka, MN 55345
952-939-8206
engineering@minnetonkamn.gov

The City of Minnetonka is considering replacement of three bridges in the Opus Area in 2022 and 2023. This project is a continuation of an ongoing project throughout the Opus Area, including the four bridges that were replaced in 2021.

See the reverse side for a map of the proposed project area.

You are invited to a virtual informational meeting to learn more, provide input and ask questions about this project. City staff will discuss the proposed improvements, project schedule, potential impacts and communications plan.

Wednesday, Feb. 23, 5 p.m.
Virtual Meeting via WebEx

Email engineering@minnetonkamn.gov to RSVP. Following, you will be sent the virtual meeting login and additional information.

If you cannot attend the meeting, contact Assistant City Engineer Chris Long to discuss the project by phone, email or at your property. All information presented at the meeting will be posted on the project website.

WHAT IS BEING PROPOSED?

Proposed improvements include the replacement of three bridges, utility improvements and storm sewer improvements.

POTENTIAL PROJECT IMPACTS

Projects of this nature can be disruptive. Proposed impacts may include limited and alternative access to businesses, temporary water service interruptions and tree removal. The city will work to minimize these impacts as much as possible as plans are finalized.

IF THIS PROJECT IS APPROVED, WILL I BE ASSESSED?

No. These types of improvements are primarily funded through state bridge funds and the city's Street Improvement Fund.

HOW TO STAY INFORMED

- Visit minnetonkamn.gov/opus-bridges to subscribe to project updates via email and/or text. Stay tuned to the project website for updates and more information.
