Subject: Change Memo for the Dec. 15th Planning Commission meeting

ITEM 8A – Groveland Cemetery

The attached neighborhood comment was received after the meeting agenda and materials were published:

I was at the informational meeting about Groveland Cemetery on November 30. I will not be able to make it to the next meeting on January 9th so I thought I would just send a quick note. I feel that the conditional use permit should definitely be approved for amendment. It seems very reasonable to allow the sale of lots in just two phases rather than the multiple years originally scheduled. It will save the city and the cemetery time and money to not have to go through this process multiple times, especially since it is already a designated cemetery and it is inevitable that it will be used as such.

Thanks.
Tess Fitch
