Site Visitor Email:

I just received the agenda for this evenings study session.

I do not think there is a need to re-think the ordinance regarding the storage of garbage/recycling containers. They should definitely be out of sight on non pickup days. I think to change this ordinance or policy would make our city look terrible. What does out of sight mean? This ruling should remain as written.

There are enough homes at this time that do not adhere to this policy.

Why would you be comparing Minnetonka to Savage or Brooklyn Park as far as utilizing their policy?
