engineering@minnetonkamn.gov

The City of Minnetonka is proposing street improvements along Wayzata Boulevard between Cheshire Lane and Plymouth Road (CSAH 61). **See reverse side for map of the project area.**

This project includes:

- Pavement mill and overlay
- Replacement of damaged curb, gutter and sidewalk
- Pedestrian ramp upgrades
- Utility cover/inlet improvements

PROJECT SCHEDULE

Construction is scheduled to begin in **July** and will last approximately 6-8 weeks.

Detailed information regarding the construction schedule will be communicated via the project website and email/text updates. Please subscribe for updates to stay informed. Schedules are weather-dependent and subject to change.

TRAFFIC IMPACTS

During construction, there will be additional traffic control in the project area, which may require temporary periods of lane shifts, flagging and detours. Residential and business access will be maintained.

Please follow construction signs, watch for traffic pattern changes and drive carefully through construction areas.

WILL I BE ASSESSED?

No. The City of Minnetonka does not assess for these improvements. The project is funded through the city's Street Improvement Fund.
