## PROCESS

- At its discretion, the city may require an outside consultant review the proposed application and provide written comment. Such consultants may include: a traffic engineer, telecommunications engineer, water resources engineer, landscape architect, forester, or appraiser. If the city requires such review and comment, the applicant must provide cash escrow to the city to cover the cost of the review. City staff will notify applicants that such review is required prior to hiring the consultant(s).
- A property owner or their representative completes a final plat application and submits this application with all required documents to the Planning Division.
- The Planning Division will prepare a report and recommendation and place the final plat request on a City Council agenda. A final plat request will not be placed on an agenda until all conditions of preliminary plat approval have been met.
- By state law, a final decision on a preliminary plat request must be made within 120-days of submittal of a complete application. An applicant may waive this 120-day time limit.
