## GENERAL CONSTRUCTION REMINDERS

- Please drive cautiously and pay attention to temporary signage.
- All timelines are dependent on weather and subject to change.

The City of Minnetonka is preparing to install a secondary forcemain (pressure sewer pipe) in your area. The project will move east along Minnetonka Drive from Williston Road to Elm Lane, and will continue east along Minnetonka Boulevard from Elm Lane to Williams Field. Please see the reverse side for a detailed map of the project area.

The project is scheduled to begin in early April and is expected to last approximately two months, although the exact duration is still to be determined and weather dependent.

## PROJECT BACKGROUND

The addition of a secondary forcemain will allow for waste flow to be diverted to a secondary pipe during needed maintenance on the original forcemain, and it will also improve safety and ensure the flow of waste in your area in the event of an emergency.

## INSTALLATION PROCESS

Crews will use directional drilling to install the secondary pipe along the route of the existing forcemain. This will not disturb the street surface except for access pits needed to insert the new pipe.

## WHAT TO EXPECT AND PROJECT IMPACTS

- There will not be any disruptions to your sewer service.
- The project may not require full road closures of Minnetonka Drive or Minnetonka Boulevard, and will not impact trail use or access.
- There will be construction in the right of way and temporary lane closures and shifts. Please plan accordingly for delays.
- Work will be conducted during business hours, Monday-Friday.
- You will begin to see construction equipment, signs and barricades along the road, but access will be maintained.

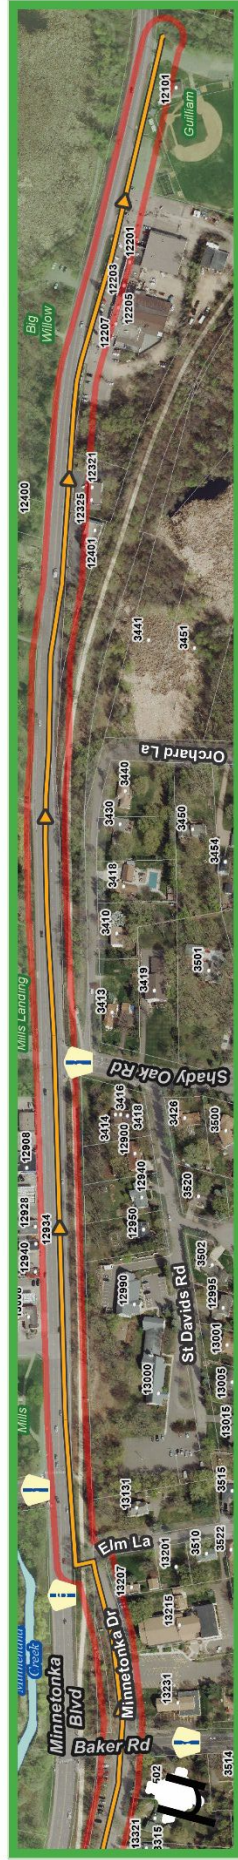

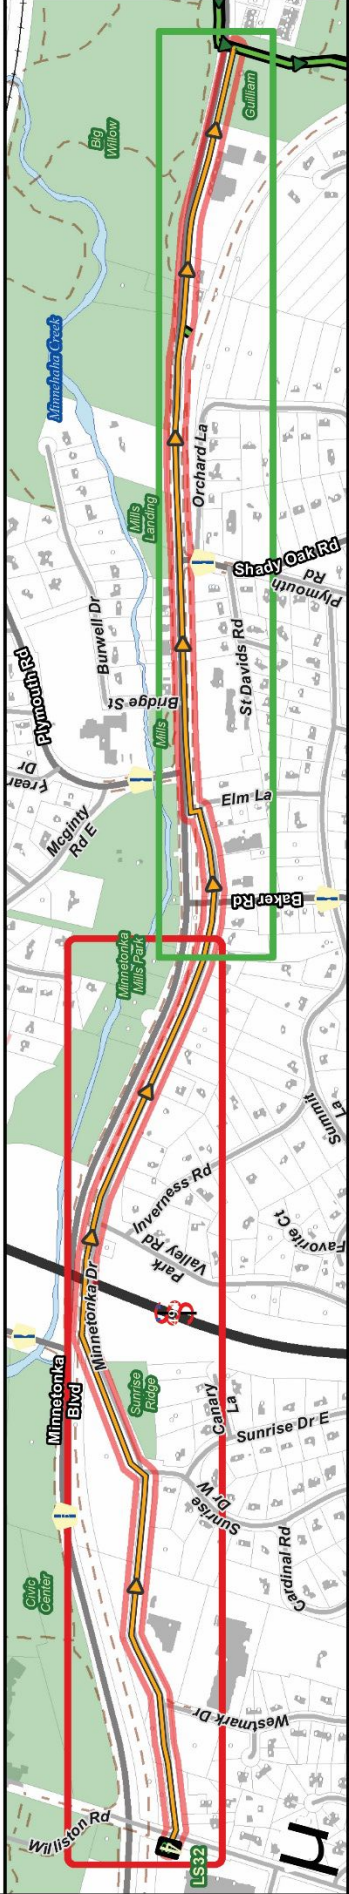

## MORE INFORMATION

- Visit [eminnetonka.com/mtkablvdforcemain](http://eminnetonka.com/mtkablvdforcemain) for project details and updates.
- Contact Richard Parr at 651-286-8457 or Jim Malone at 952-988-8400 with questions or to get more information.

We sincerely appreciate your patience and understanding throughout construction.
