polson@eminnetonka.com

The City of Minnetonka is preparing for the Ridgehaven Lane/Ridgedale Drive Improvements Project to help reduce congestion in the Ridgedale area. The project includes improvements to the street (new pavement, added turn lanes), sidewalks, lighting and landscaping.

See the back of this letter for a detailed map of the project area.

Traffic Impacts

Ridgedale Drive will remain open in both directions (north and south) throughout construction. However, drivers should follow posted routes, drive carefully and anticipate delays.

Plymouth Road will also remain open, but will use lane shifts during portions of the project. Ridgehaven Lane will be closed throughout the project. Cartway Lane will remain open to connect Ridgedale Drive and Plymouth Road

Access to Businesses

In order to ensure access to businesses, road closures and lane shifts will be kept to a minimum. However drivers can expect inconveniences on Ridgedale Drive, Plymouth Road and the surrounding area.

Please encourage employees and customers to be alert, drive carefully through construction areas and plan accordingly for delays.

Open to Business

If your business would like help planning for the construction, contact Open to Business Program Manager Rob Smolund at rsmolund@mccdmm.org or 612-843-3260.

Project Schedule

- Early April – Construction begins
- Late Fall – Road and utility improvements complete
- Spring 2019 – Landscaping, street lights and final paving

How to Stay Informed

- Stay tuned to eminnetonka.com/ridgehaven for project information, and sign up for email and/or text project updates
- Contact Construction Coordinator Chris Smith or WSB & Associates Construction Inspector Doug Hackman with questions or for more information.
