Minnetonka Energy Action Team Vision and Goal Statements

Our Vision

For people who care about responsible energy stewardship, Minnetonka will be their community of choice.

We will lead the metro in efficient energy management.

- All of our buildings (both public and private) will be examples of the best approaches to using energy wisely.
- The Minnetonka community will show that responsible resource management is a high priority here. We will support and celebrate community practices that ...
 - Improve our understanding of resource management
 - Reduce the impact that we have on our changing climate and limited resources
 - Let us enjoy the financial and health benefits of these activities
 - Sustain our vibrant, attractive community for generations to come

Our Goal

Reduce GHG emissions from energy consumption in Minnetonka X% by year Y

Our Plan

Deliver on our goal with strategies developed in support of 4 focus areas

1. Multi-Family Housing
2. Residential Energy Efficiency
3. Renewables
4. Pre-1990 Homes
